Record #1, Position: 599 - 608, Format: N10.4

Variable Label: First follow-up questionnaire (cross-sectional) weight

Variable Description:

- This weight applies to all first follow-up respondents, regardless of their participation status in the base year. When used with the appropriate sample flags (selection criteria appear in parentheses below), it allows projections to the following populations:

-Spring 2002 tenth graders capable of completing questionnaires in 2004, regardless of 2002 participation (G10COHRT=1)

or

-Spring 2004 twelfth graders capable of completing questionnaires in 2004 regardless of 2002 participation (G12COHRT=1).

For additional information, see section 3.4 in the ELS:2002 Base Year to First Follow-Up Data File Use's Manual.

Note: The following reserve codes are used throughout the ECB. This description is added to the first variable of each section to help users understand the meaning of each reserve code.

- 1: "Don't know" represents respondents who indicated that they didn't know the answer to the question.
- 2: "Refused" represents respondents who indicated that they refused to answer the question
- 3: "Item legitimate skip/NA" is filled for questions that are not administered based on routing logic; i.e., the items are not applicable based on responses to prior questions.
- 4: "Nonrespondent" is filled for all variables across the entire questionnaire when a sample member did not respond to the questionnaire.
- 5: "Out of range" represents questionnaire respondents who reported values that are out of range.
- 6: "Multiple response" represents hard copy questionnaire respondents who reported more than one response for an item that requires only one response.
- 7: "Partial interview-breakoff" is filled for questions that are not answered because the respondent does not wish to continue the interview or they have run out of time. This also includes particular items that are not included on an abbreviated version questionnaire.
- 8: "Survey component legitimate skip/NA" is filled for all items within a survey component for sample members who were not administered that component by design for one of the following reasons: 1) the component was not administered based on their status (e.g., transfer students did not receive certain items on the in-school survey), 2) the sample member was not a part of the study at the time of administration (e.g., first follow-up freshened sample members were by definition not eligible for the base-year survey), or 3) the sample member was not capable of completing the survey component (e.g., students who were questionnaire-ineligible due to a language barrier or disability at the time of the survey).
- 9: "Missing" is filled for questions that are not answered when the routing suggests that a response should have been provided.
